Section 1. Identification

Product Identifier: Starbrite Silicone Sealant  
Synonyms: 821XX  
Manufacturer Stock Numbers: N/A  
Recommended use: N/A  
Uses advised against: N/A  
Manufacturer Contact Address: Star brite Inc.  
4041 SW 47th Avenue  
Fort Lauderdale, FL 33314 US  
Contact Person: Vincent Waclawek  
Phone: (954) 587-6280  
Emergency Phone: (800) 424-9300 Chemtrec  
Fax: N/A

Section 2. Hazards Identification

Classification:  
ACUTE TOXICITY - ORAL - Category 4  
EYE DAMAGE/IRRITATION - Category 2A  
SKIN CORROSION/IRRITATION - Category 2  
Signal Word: Warning  
Pictogram:

Hazard Statements:  
Causes serious eye irritation  
Causes skin irritation  
Harmful if swallowed  
Precautionary Statements Response:  
If eye irritation persists: Get medical advice/attention.  
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
If on skin: Wash with lukewarm, gently flowing water for 5 minutes. If irritation persists, obtain medical attention.
If skin irritation occurs: Get medical advice/attention. If swallowed: Call a poison center or doctor if you feel unwell. Rinse mouth. Take off contaminated clothing and wash it before reuse.

**Prevention**
Do not eat, drink or smoke when using this product. Wash ...thoroughly after handling. Wear eye protection/face protection. Wear protective gloves.

**Storage**
N/A

**Disposal**
Dispose of contents/container in accordance with all local, state and federal regulations.

**Ingredients of unknown toxicity**

**Hazards not Otherwise Classified**

None known

**Section 3. Ingredients**

**Section 4. First-aid Measures**

**Eye Contact**
Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 5 minutes while holding the eyelids open. Obtain medical attention.

**Skin Contact**
No health effects expected. If irritation does occur, flush with lukewarm, gently flowing water for 5 minutes. If irritation persists, obtain medical advice.

**Inhalation**
If symptoms are experienced remove source of contamination or move victim to fresh air. If irritation persists, obtain medical advice.

**Ingestion**
If irritation or discomfort occur, obtain medical advice.

**Comments**
Treat according to person's condition and specifics of exposure.
Section 5. Fire Fighting Measures

| Suitable Extinguishing Media | N/A |
| Unsuitable Extinguishing Media | N/A |
| Auto-ignition Temperature | Not determined |
| Flammability Limits in Air | Not determined |
| Extinguishing Media | On large fires use dry chemical, foam, or water spray. On small fires use carbon dioxide, dry chemical or water spray. Water can be used to cool fire exposed containers. |

Special Fire Fighting Procedures

Self-contained breathing apparatus and protective clothing should be worn when fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

Unusual Fire or Explosion Hazards

None known

Section 6. Accidental Release Measures

Steps to be taken in case of spill or release

Observe all personal protection equipment recommendations in Sections 5 and 8. Wipe or scrape up and contain for salvage or disposal. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbant or cleaning materials appropriately, since spontaneous heating may occur. Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable. Sections 13 and 15 of this MSDS provide information regarding certain federal and state requirements.

Note

See Section 8 for information about personal protective equipment for spills.
Section 7. Handling and Storage

Handling
Use adequate ventilation. Product evolves acetic acid when exposed to water or humid air. Provide ventilation during use to control acetic acid within exposure guidelines or use respiratory protection. Avoid eye contact. Avoid skin contact.

Storage
Use reasonable care and store away from oxidizing materials. Keep container closed and store away from water or moisture. This material in its finely divided form presents an explosion hazard. Follow NFPA 654 (for chemical dusts) or 484 (for metal dusts) as appropriate for managing dust hazards to minimize secondary explosion potential.

Section 8. Exposure Controls/Personal Protection

Occupational Exposure Limits

Personal Protective Equipment
Goggles, Gloves

Component Exposure Limits
Component Name: Ethyltriacetoxysilane CAS Number: 17689-77-9
Exposure Limits: See acetic acid comments
Component Name: Methyltriacetoxysilane CAS Number: 4253-34-3
Exposure Limits: See acetic acid comments
Acetic acid is formed upon contact with water or humid air. Provide adequate ventilation to control exposures within guidelines of OSHA PEL: TWA 10 ppm and ACGIH TLV: TWA 10 ppm, STEL 15 ppm.

Engineering Controls
Local Ventilation: None should be needed
General Ventilation: Recommended

Eye Protection
Use proper protection - safety glasses as a minimum.

Skin Protection
Wash at mealtimes and end of shift. Contaminated clothing and shoes should be removed as soon as practical and thoroughly cleaned before reuse. Chemical protective gloves are recommended. Suitable Gloves: Handle in accordance with good industrial hygiene and safety practices.

Respiratory Protection
No respiratory protection should be needed. Suitable Respirator: None should be needed.

Precautionary Measures
Avoid eye contact. Avoid skin contact. Use reasonable care.

Comment
Product evolves acetic acid when exposed to water or humid air. Provide ventilation during use to control acetic acid within exposure guidelines or use respiratory protection. When heated to temperatures above 150°C (300°F) in the presence of air, product can form formaldehyde vapors. Physical and health hazard information is readily available on the Material Safety Data Sheet. When heated to temperatures above 150°C in the presence of air, product can form formaldehyde vapors. Formaldehyde is a potential cancer hazard, a known skin and respiratory sensitizer, and an irritant to the eyes, nose throat, skin and digestive system. Safe handling conditions may be maintained by keeping vapor concentrations within the OSHA Permissible Exposure Limit for formaldehyde.

Note
These precautions are for room temperature handling. Use at elevated temperatures or aerosol/spray applications may require added precautions.

Section 10. Stability and Reactivity

Chemical Stability  Stable
Hazardous  Will not occur
Polymerization  None known
Conditions to Avoid  None known
Materials to Avoid / Incompatibility  Oxidizing material can cause a reaction. Water, moisture or humid air can cause hazardous vapors to form as described in Section 8.
Hazardous Decomposition Products  Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products: Carbon oxides and traces of incompletely burned carbon compounds Formaldehyde Silicon dioxide

Section 11. Toxicological Information

Special Hazard Information on Components  No known applicable information.

Section 12. Ecological Information

Environmental Fate and Distribution  Complete information is not yet available.
Environmental Effects  Complete information is not yet available.
Fate and Effects in Waste Water Treatment Plants  Complete information is not yet available.

Section 13. Disposal

RCRA Hazard Class (40 CFR 261)  When a decision is made to discard this material, as received, is it classified as a hazardous waste? NO State or local laws may impose additional regulatory requirements regarding disposal.
Waste Disposal Method  We make no guarantee or warranty of any kind that the use or disposal of this product complies with all local, state, or federal laws. It is also the obligation of each user of the product mentioned herein to determine and comply with the requirements of all applicable statutes. This product is not known to be regulated under RCRA regulations. Disposal of unused portions of this product and process waste containing this product should be done only after a careful evaluation and in compliance with all federal, local and state laws.

Road Shipment Information (DOT)  
Ocean Shipment (IMDG)  
Air Shipment (IATA)  
Not subject to DOT regulations.  
Not subject to IMDG code.  
Not subject to IATA regulations.

Section 15. Regulatory Information

TSCA Status  
All chemical substances in this material are included on or exempted from listing on the TSCA Inventory of Chemical Substances.

SARA Title III Section 302 Extremely Hazardous Substances  
None

SARA Title III Section 304 CERCLA Substances dangereuses  
None

SARA Title III Section 311/312 Hazard Class  
Acute: No Chronic: No Fire: No Pressure: No Reactive: No

SARA Title III Section 313 Toxic Chemicals  
None present or none present in regulated quantities.

Note  
Chemicals are listed under the 313 Toxic Chemicals section only if they meet or exceed a reporting threshold.

California Proposition 65  
This product contains the following chemical(s) listed by the State of California under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65) as being known to cause cancer, birth defects or other reproductive harm: None known

New Jersey  
Dimethyl siloxane, hydroxy-terminated (70131-67-8)  
Ethyltriacetoxysilane (17689-77-9)  
Methyltriacetoxyisilane (4253-34-3)  
Silica, amorphous (7631-86-9)  
Hydrotreated middle petroleum distillates (64742-46-7)

Pennsylvania  
Dimethyl siloxane, hydroxy-terminated (70131-67-8)  
Silica, amorphous (7631-86-9)  
Hydrotreated middle petroleum distillates (64742-46-7)
