SECTION 1: IDENTIFICATION

Product Identifier
Product Form: Mixture
Product Name: FUEL SYSTEM & INJECTOR CLEANER
Product Code: 966XX

Intended Use of the Product
Fuel Additive

Name, Address, and Telephone of the Responsible Party
Company
Star brite Inc.
4041 SW 47th Avenue
Fort Lauderdale, FL 33314
(954)587-6280
www.starbrite.com

Emergency Telephone Number
Emergency Number: US: (800) 424-9300; International: (703) 527-3887 (CHEMTREC)

SECTION 2: HAZARDS IDENTIFICATION

Classification of the Substance or Mixture
Classification (GHS-US)
Flam. Liq. 4 H227
Skin Sens. 1 H317
Asp. Tox. 1 H304

Full text of H-phrases: see section 16

Label Elements
GHS-US Labeling

Hazard Pictograms (GHS-US):

Health Hazard: GHS08
Combustible Liquid: GHS07

Signal Word (GHS-US): Danger
Hazard Statements (GHS-US):
H227 - Combustible liquid.
H304 - May be fatal if swallowed and enters airways.
H317 - May cause an allergic skin reaction.

Precautionary Statements (GHS-US):
P210 - Keep away from heat, sparks, open flames, hot surfaces. - No smoking.
P261 - Avoid breathing mist, spray, vapors.
P272 - Contaminated work clothing must not be allowed out of the workplace.
P280 - Wear eye protection, protective clothing, protective gloves, respiratory protection.
P301+P310 - If swallowed: Immediately call a POISON CENTER, a doctor.
P302+P352 - If on skin: Wash with plenty of water.
P321 - Specific treatment (see Section 4 on this SDS).
P331 - Do NOT induce vomiting.
P333+P313 - If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 - Take off contaminated clothing and wash it before reuse.
P370+P378 - In case of fire: Use alcohol resistant foam, carbon dioxide (CO2), dry extinguishing powder, Water to extinguish.
P403+P235 - Store in a well-ventilated place. Keep cool.
P405 - Store locked up.
P501 - Dispose of contents/container in accordance with local, regional, national, territorial, provincial, and international regulations.
FUEL SYSTEM & INJECTOR CLEANER

Exposure may aggravate those with pre-existing eye, skin, or respiratory conditions. May cause drying or defatting of the skin.

Other Hazards
Aquatic Acute 2 H401
H401 - Toxic to aquatic life
P273 - Avoid release to the environment.

Inhalation:
May cause drowsiness or dizziness – symptoms can include: dizziness, nausea, vomiting, loss of coordination, and disorientation. Extreme exposures can cause respiratory depression, loss of consciousness.

Indication of Any Immediate Medical Attention and Special Treatment Needed
Obtain medical attention if irritation develops or persists.

Other Hazards
May cause an allergic reaction in sensitive individuals. Aspiration hazard.

Most Important Symptoms and Effects Both Acute and Delayed
General: May cause an allergic reaction in sensitive individuals. Aspiration hazard.
Inhalation: May cause drowsiness or dizziness – symptoms can include: dizziness, nausea, vomiting, loss of coordination, and disorientation. Extreme exposures can cause respiratory depression, loss of consciousness.
Skin Contact: May cause an allergic skin reaction.
Eye Contact: May cause eye irritation.
Ingestion: May be fatal if swallowed and enters airways. Ingestion may cause narcotic effects including, but not limited to: nausea, vomiting, abdominal pain, dizziness, incoordination, and respiratory depression.
Chronic Symptoms: None expected under normal conditions of use.

* Product classification is being withheld as a trade secret. If you determine that a medical emergency exists and the specific chemical identity is necessary for emergency or first-aid treatment we will immediately disclose the specific chemical identity. Call CHEMTREC 800-424-9300 or 703-527-3887. We will require a written statement of need and confidentiality agreement, in accordance with OSHA’s Trade Secret Regulations as soon as circumstances permit. In non-emergency situations, we will upon written request disclose a specific chemical identity.

SECTION 4: FIRST AID MEASURES

Full text of H-phrases: see section 16

Ingestion:
Rinse mouth. Do NOT induce vomiting. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

Most Important Symptoms and Effects Both Acute and Delayed
General: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label if possible).
Inhalation: If you feel unwell, seek medical advice (show the label if possible).

Other Hazards
General: May cause an allergic reaction in sensitive individuals. Aspiration hazard.
Inhalation: May cause drowsiness or dizziness – symptoms can include: dizziness, nausea, vomiting, loss of coordination, and disorientation. Extreme exposures can cause respiratory depression, loss of consciousness.
Skin Contact: May cause an allergic skin reaction.
Eye Contact: May cause eye irritation.

SECTION 5: FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Dry powder, alcohol-resistant foam, water spray or fog in large amounts, carbon dioxide (CO₂).

Unsuitable Extinguishing Media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

Special Hazards Arising From the Substance or Mixture
Fire Hazard: Combustible liquid. Vapours are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapors.
FUEL SYSTEM & INJECTOR CLEANER

Safety Data Sheet

Environmental Precautions

- **Explosion Hazard:** May form flammable/explosive vapor-air mixture.
- **Reactivity:** Reacts with strong oxidants causing fire and explosion hazard.

**Advice for Firefighters**

- **Precautionary Measures Fire:** Exercise caution when fighting any chemical fire.
- **Firefighting Instructions:** Use water spray or fog for cooling exposed containers. In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. Do not allow run-off from firefighting to enter drains or water courses. Do not breathe fumes from fires or vapors from decomposition.
- **Protection During Firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection.
- **Hazardous Combustion Products:** Carbon oxides (CO, CO₂).

**Reference to Other Sections**

Refer to section 9 for flammability properties.

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment and Emergency Procedures**

- **General Measures:** Use special care to avoid static electric charges. Keep away from open flames, hot surfaces and sources of ignition. No smoking. Avoid all eyes and skin contact and do not breathe vapor and mist. Use only outdoors or in a well-ventilated area.

**For Non-Emergency Personnel**

- **Protective Equipment:** Use appropriate personal protection equipment (PPE).
- **Emergency Procedures:** Evacuate unnecessary personnel.

**For Emergency Personnel**

- **Protective Equipment:** Equip cleanup crew with proper protection.
- **Emergency Procedures:** Evacuate unnecessary personnel. Eliminate ignition sources. Stop leak if safe to do so. Ventilate area.

**Environmental Precautions**

Prevent entry to sewers and public waters.

**Methods and Material for Containment and Cleaning Up**

- **For Containment:** Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.
- **Methods for Cleaning Up:** Clear up spills immediately and dispose of waste safely. Absorb and/or contain spill with inert material, then place in suitable container. Do not take up in combustible material such as: saw dust or cellulosic material. Use only non-sparking tools. If spilled directly onto the ground, remove sufficient soil to ensure material is fully recovered. Contact competent authorities after spill.

**Reference to Other Sections**

See heading 8, Exposure Controls and Personal Protection. Concerning disposal elimination after cleaning, see item 13.

**SECTION 7: HANDLING AND STORAGE**

**Precautions for Safe Handling**

- **Additional Hazards When Processed:** Handle empty containers with care because residual vapors are flammable. Keep away from heat/sparks/open flames/hot surfaces. No smoking.
- **Hygiene Measures:** Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and again when leaving work. Wash hands and forearms thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse.

**Conditions for Safe Storage, Including Any Incompatibilities**

- **Technical Measures:** Proper grounding procedures to avoid static electricity should be followed.
- **Storage Conditions:** Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Keep in fireproof place. Store locked up. Keep cool. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.
- **Incompatible Materials:** Strong acids. Strong bases. Strong oxidizers.

**Specific End Use(s) Fuel Additive**

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Control Parameters**

For substances listed in section 3 that are not listed here, there are no established Exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), NIOSH (REL), OSHA (PEL), Canadian provincial governments, or the Mexican government.

| Petroleum distillates, hydrotreated light (64742-47-8) | OEL TWA (mg/m³) | 200 mg/m³ (application restricted to conditions in which |
FUEL SYSTEM & INJECTOR CLEANER

Safety Data Sheet
According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations

Exposure Controls
Appropriate Engineering Controls: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Gas detectors should be used when flammable gases or vapors may be released. Ground/bond container and receiving equipment. Use explosion-proof equipment. Ensure all national/local regulations are observed.

Materials for Protective Clothing: Chemically and fire/flame resistant materials and fabrics.

Hand Protection: Wear chemically resistant protective gloves.

Eye Protection: Chemical safety goggles.

Skin and Body Protection: Wear suitable protective clothing.

Respiratory Protection: If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn.

Other Information: When using, do not eat, drink or smoke.

Explosion Data – Sensitivity to Mechanical Impact: Not expected to present an explosion hazard due to mechanical impact.

Explosion Data – Sensitivity to Static Discharge: Not expected to present an explosion hazard due to static discharge.

SECTION 10: STABILITY AND REACTIVITY

Reactivity: Reacts with strong oxidants causing fire and explosion hazard.

Chemical Stability: Combustible liquid. May form flammable/explosive vapor-air mixture.

Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

Conditions to Avoid: Direct sunlight. Extremely high or low temperatures. Overheating. Sources of ignition. Incompatible materials.

FUEL SYSTEM & INJECTOR CLEANER

Safety Data Sheet

SECTION 11: TOXICOLOGICAL INFORMATION

Information on Toxicological Effects - Product

Acute Toxicity: Not classified
LD50 and LC50 Data: Not available
Skin Corrosion/Irritation: Not classified
Respiratory or Skin Sensitization: May cause an allergic skin reaction.
Germ Cell Mutagenicity: Not classified
Teratogenicity: Not classified
Carcinogenicity: Not classified
Specific Target Organ Toxicity (Single Exposure): Not classified
Specific Target Organ Toxicity (Repeated Exposure): Not classified
Reproductive Toxicity: Not classified
Aspiration Hazard: May be fatal if swallowed and enters airways.
Symptoms/Injuries After Inhalation: May cause drowsiness or dizziness – symptoms can include: dizziness, nausea, vomiting, loss of coordination, and disorientation. Extreme exposures can cause respiratory depression, loss of consciousness.
Symptoms/Injuries After Skin Contact: May cause an allergic skin reaction.
Symptoms/Injuries After Eye Contact: May cause eye irritation.
Symptoms/Injuries After Ingestion: May be fatal if swallowed and enters airways. Ingestion may cause narcotic effects including, but not limited to: nausea, vomiting, abdominal pain, dizziness, incoordination, and respiratory depression.
Chronic Symptoms: None expected under normal conditions of use.

Mobility in Soil Not available

Other Adverse Effects

Other Information: Avoid release to the environment.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste Disposal Recommendations: Dispose of waste material in accordance with all local, regional, national, provincial, territorial and international regulations.

Additional Information: Handle empty containers with care because residual vapors are flammable.

Ecology - Waste Materials: This material is hazardous to the aquatic environment. Keep out of sewers and waterways. Hazardous waste due to toxicity.

WHMIS Classification Class D Division 2 Subdivision B - Toxic material causing other toxic effects

Polyether amine
Listed on the Canadian DSL (Domestic Substances List)
WHMIS Classification Trade Secret

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all of the information required by CPR.

SECTION 16: OTHER INFORMATION, INCLUDING DATE OF PREPARATION OR LAST REVISION

Revision Date : 08/24/2015
Other Information : This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200.

GHS Full Text Phrases:

Aquatic Acute 2 Hazardous to the aquatic environment - Acute Hazard Category 2
Asp. Tox. 1 Aspiration hazard Category 1
Flam. Liq. 4 Flammable liquids Category 4
Skin Sens. 1 Skin sensitization Category 1
H227 Combustible liquid
H304 May be fatal if swallowed and enters airways
H317 May cause an allergic skin reaction
H401 Toxic to aquatic life

NFPA Health Hazard : 2 - Intense or continued exposure could cause temporary incapacitation or possible residual injury unless prompt medical attention is given.

NFPA Fire Hazard : 2 - Must be moderately heated or exposed to relatively high temperature before ignition can occur.

NFPA Reactivity : 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.
